PROFESSIONAL SUMMARY

Detail-oriented Web Developer with 3 years of experience specializing in front-end engineering. Proven ability to enhance user interfaces, integrate APIs, and deliver seamless user-centered experiences by collaborating effectively in Agile environments.

WORK EXPERIENCE

ThinkBit Solutions Phils Inc.

Jan 2025 – present

Bootstrap Developer

Quezon City, Metro Manila (Remote)

- Translated wireframes and mockups into functional web applications, ensuring cross-browser compatibility and responsiveness.
- Collaborated with UI/UX designers, DevOps, backend developers, and QA engineers throughout the development process, improving overall project delivery.
- Participated in Agile Scrum ceremonies, contributing to sprint planning and delivery of feature updates, leading to a streamlined workflow.

Computer Professionals Inc.

Sep 2023 - Dec 2024

Junior Developer

Pasig City, Metro Manila (Hybrid)

- Implemented front-end features using current web technologies and integrated them with backend APIs to enhance application performance.
- Optimized front-end performance for maximum speed and scalability, resulting in faster load times and a smoother experience.
- Produced detailed technical documentation and reusable code, aiding future development and onboarding processes.

Planning and Development Office - BulSU

Jun 2022 – Aug 2022

Design Engineering Intern

Malolos, Bulacan (On-site)

- Developed detailed CAD designs and layouts for auxiliary systems, aligning with project objectives to improve accuracy.
- Collaborated with the design engineering team to address design challenges, enhancing overall project feasibility.
- Created and compiled project reports, ensuring clear communication of design progress and revisions.

Tanay Rural Bank - Tanay Branch

Feb 2018

Marketing Intern

Tanay, Rizal (On-site)

- Organized and filed account records and performed data entry tasks.
- Maintained and updated record-keeping systems.

PROJECTS

Construction Management Admin Portal

July 2026 - Aug 2026

Front-End Developer - Vue JS

- Maintained and integrated frontend changes with backend APIs, and developed additional features.

Online Gaming & Raffle Platform

Mar 2026 - July 2026

Front-End Developer - Vue JS

- Maintained web applications through enhancements and bug fixes to improve user experience.

- Integrated front-end changes with backend APIs.

Telecommunications Enterprise Management System

Jan 2026 - Mar 2026

Bootstrap Developer - jQuery

- Maintained the web application by implementing enhancements and resolving defects, leading to improved application stability.

Healthcare Claims & Pharmacy Management System

Sep 2025 - May 2026

Bootstrap Developer - jQuery

- Developed new features for a web application managing medicine dispensing and patient records, optimizing healthcare processes.
- Implemented mobile responsiveness and data tables with filtering for enhanced user accessibility.

Healthcare Management Information System

Jan 2025 - Aug 2026

Bootstrap Developer - jQuery

- Developed and maintained a healthcare web application facilitating patient and client management, improving service delivery.
- Integrated multiple modules including accounting and billing, enhancing organizational efficiency.

Insurance Customer Portal

Jan 2024 - Jul 2024

Front-End Developer - React JS

- Developed mobile-responsive web pages and features with both front-end and back-end integration, resulting in enhanced user interactivity.
- Utilized React.js, SCSS, and Axios for effective data handling and user experience.

Quisine Kamote Chips (QKC) Inventory System

Sep 2023 - Nov 2023

Full Stack Developer - Java Spring Boot

- Developed the dispatch module to support operational workflows.
- Designed and developed the overall user interface for the application.

EDUCATION

Bulacan State University – Main Campus

Aug 2018 – Jun 2023

Bachelor of Science in Electronics Engineering

Malolos, Bulacan

San Ildefonso College

Jun 2016 - Apr 2018

Accountancy, Business, and Management

Tanay, Rizal
